A DISTINCTIVE LINE OF GLASS SHELVES

¶ A modern bath room is not complete without its complement of glass shelves.

¶ Formerly, such were thought luxuries; to-day they are necessities. Especially is this true now that we are making the cost such that PEOPLE OF REFINEMENT BUT WITH MODERATE INCOME CAN AFFORD THEM.

¶ To glass shelves more than any other of our wares have we given time and thought. Nowhere else can be found so well designed and complete a line of these beautiful bath room fittings.

¶ In length, width and style of brackets we have tried to provide for every reasonable need, while for special designs and sizes we are glad to furnish estimates when desired.

¶ Our shelves are all either of heavy plate glass or the beautiful white Carrara, with rounded corners and bevelled edges.

¶ Our requirements for fine plate glass for 1908, which we anticipated, are so large that we obtained important concessions of which we are GIVING YOU THE BENEFIT.
